The prudent and sophisticated take care of their wealth. Using a vehicle such as a Trust or a Foundation can offer a number of benefits - they can afford clients the ability to protect it from outsiders, invest it wisely, prevent it from bringing family problems or direct its management and distribution, even after death.

Whether for the purpose of succession planning, protecting assets, managing forced heirship rules, preserving family wealth, navigating tax and regulatory issues or planning for the future of a family or business – our fiduciary knowledge and experience means that we can quickly identify the most appropriate structure and deliver a solution that is best suited to your needs, protecting what you care about and in the way that you desire.

BESPOKE SOLUTIONS IN WHICH SAFE CUSTODY, EFFECTIVE MANAGEMENT & COMPLIANCE REMAIN PRIORITY

Owning and operating a yacht can be complex. With a comprehensive understanding of the industry, we can assist owners and their representatives in understanding the diverse requirements associated with the ownership, registration and management of a vessel, whether being used on a commercial or private basis.

Giving significant consideration to how and where an owner plans to use their vessel, we will ascertain whether there is any tax or VAT exposure and whether the asset intends to generate income, whereby tailored tax planning could offer any fiscal benefits and/or minimise liabilities. With a global reach, we can also offer multi-jurisdictional registration and assist with a vessel's ongoing flag state requirements as well as its regulatory, technical and administrative upkeep.

With a continually changing legislative and regulatory landscape, we understand the importance of staying abreast of new developments to ensure that the vessels under our management remain compliant, whilst leaving the owners free to enjoy their asset, confident that its safe custody and effective management remains a priority.
