## SUMMARY OF SERVICES

---

Sentient International is a privately owned group of independent, modern corporate and trust service providers, who between them have a solid track record of over 35 years.

Providing bespoke international business solutions to a broad spectrum of international clients, not only do we offer a wide range of services that are efficient, flexible and cost effective, our team of professionals offer complete in-house expertise as well as experience within a number of niche industry sectors.

We are committed to providing the highest level of customer care and ensure that the services we provide are delivered professionally, reliably and with complete integrity.

We are proud to be more than just a corporate and trust service provider.

## ESTABLISHMENT AND ADMINISTRATION OF BESPOKE AIRCRAFT OWNERSHIP STRUCTURES

---

With the legislative and regulatory arena surrounding the aviation industry continually evolving, it has never been more important to stay abreast of changes and new developments to ensure that any aircraft being managed is done so effectively whilst remaining compliant.

With a comprehensive understanding of the industry, we provide bespoke corporate structures for the effective ownership and operation of a range of aircraft including business jets and helicopters, working with the owners, their family offices, advisors and aircraft managers to ensure that the necessary administrative and operational support is in place.

## INTERNATIONAL AIRCRAFT REGISTRATION & ADMINISTRATION

---

With the ability to offer international aircraft registration, we assist clients in finding the most suitable jurisdiction in which to register their aircraft according to their individual needs and requirements, managing the registration process from application through to certification.

Following registration, we can provide support in respect of the renewal of certificates and the ongoing maintenance of the aircraft.

SENTIENT

OUR SENSE. YOUR FUTURE.

## BOOKKEEPING AND ACCOUNTING

---

We have a team of experienced and qualified professionals who between them offer a full range of administration, bookkeeping and accounting services, affording our clients the ability to demonstrate the financial position of their companies that we manage at any time. Our services include bookkeeping, the preparation of annual/periodic financial statements, VAT registration and administration and tax compliance.

## CO-ORDINATION OF LEGAL, TAX AND VAT ADVISORY SERVICES

---

Obtaining the appropriate legal, tax and VAT advice when considering the purchase and ongoing operation of an aircraft is crucial.

Working closely with your chosen advisors, we will look at how and where your aircraft is to be used to ascertain whether there are any tax or VAT exposures that need to be considered and to evaluate whether there are any fiscal benefits or the opportunity to reduce any liabilities through tailored tax planning.

Whilst we do not provide legal, tax or VAT advice ourselves, we have a network of advisors across the globe and can coordinate the appropriate advice with the right advisors, should this be required.

## FACILITATION OF FINANCE AND INSURANCE

---

With a global network of contacts, we can facilitate and coordinate finance for the purchase of your aircraft as well as the appropriate insurances for your asset thereafter.

## CREW EMPLOYMENT & PAYROLL

---

We provide comprehensive yet flexible crew employment and payroll processing solutions for those working on commercially registered and private aircraft.

Working closely with aircraft operators, owners and their representatives, we tailor our solutions to meet the needs and requirements of each individual client.
