OUR SENSE. YOUR FUTURE.

# CORPORATE

## SUMMARY OF SERVICES

---

Sentient International is a privately owned group of independent, modern corporate and trust service providers, who between them have a solid track record of over 35 years.

Providing bespoke international business solutions to a broad spectrum of international clients, not only do we offer a wide range of services that are efficient, flexible and cost effective, our team of professionals offer complete in-house expertise as well as experience within a number of niche industry sectors.

We are committed to providing the highest level of customer care and ensure that the services we provide are delivered professionally, reliably and with complete integrity.

We are proud to be more than just a corporate and trust service provider.

## INTERNATIONAL COMPANY FORMATION AND ADMINISTRATION

---

Corporate entities have long played an important role in effective financial planning. However, choosing the most suitable entity type in the most appropriate jurisdiction can be a complex process.

We establish and administer a range of structures in multiple jurisdictions for our international client base, which is complemented by a full suite of back-office support services. Our in-depth knowledge and practical experience mean that we are highly proficient in delivering effective solutions to our clients that are best suited to their needs.

SENTIENT

OUR SENSE. YOUR FUTURE.

## ESTABLISHMENT AND ADMINISTRATION OF HYBRID STRUCTURES

---

Sentient understands the limitations and problems encountered with trusts and foundations, but we believe there is always a solution, which is why Sentient International is one of the few CSPs to offer a Manx Hybrid Company. The Manx Hybrid can be structured to replicate many of the practical features of a Foundation or Trust, making it a great alternative form of Company.

## GENERAL PARTNERSHIP MANAGEMENT

---

Partnerships provide an alternative vehicle to a company whilst offering limited liability to its owners. We have extensive experience in setting up and managing Limited Partnerships and fully understand the role and responsibilities of the General Partner.

## BOOKKEEPING & ACCOUNTING

---

We have a team of experienced and qualified professionals that offer a full range of administration, bookkeeping and accounting services so that we can demonstrate the financial position of the companies we manage at any time, allowing our clients to make better-informed decisions for their businesses through relevant and efficient statistical information.

With clients ranging from private companies to multinationals, we offer a full range of solutions which are tailored to the level each client requires. For corporate entities, particularly those trading across Europe, VAT can be very time-consuming and heavily administrative.

Our solutions can encompass all or a combination of bookkeeping, preparation of annual or periodic management accounts, preparation of financial statements, registration for VAT and the completion and submission of VAT and tax returns.

## LEGAL, TAX & VAT ADVISORY

---

Due to the scope and complexity of tax and legalities when establishing any structure, obtaining the appropriate professional advice is essential.

Whilst we do not provide legal, tax, or VAT advice ourselves, we have a network of advisors across the globe and can coordinate the appropriate advice with the right advisor for your proposed structure to ensure that it is fit for purpose and yields the desired results.

Should you have an existing relationship, we are also happy to work with any advisors of your choosing.
